- Contractor: C&P Construction Co.
- Scope of work: water main installation, water main connections and water service connections, removal and replacement of sidewalk ramps, sidewalk, driveway approaches, curbing, asphalt pavement and concrete pavement as necessary.

### **CAP1625 – 2016 Joint Sealing Improvements (Millage)**

- Location: major and local roads resurfaced in 2015 and other local concrete streets
- Contractor: Scodeller Construction Co.
- Scope of work: joint seal recently resurfaced streets, route clean and seal cracks and joints in concrete pavement.

### **CAP1535 – 2016 Road Reconstruction Improvements (Millage)**

- Location: Various streets, refer to [project map](#)
- Contractor: Hard Rock Concrete
- Scope of work: removal of deficient roadway pavement, installation of concrete pavement with integral curb, minor storm sewer and drainage structure improvements, removal and replacement of sidewalk ramps and driveway approaches, water main installation where needed, and lawn restoration.

### **CAP1515 – 2016 Asphalt Resurfacing Improvements (Millage)**

- Location: Various streets, refer to [project map](#)
- Contractor: AJAX Paving
- Scope of work: milling of the existing pavement, resurfacing the roadway with new asphalt pavement, removal and replacement of sidewalk ramps and driveway approaches as needed, and areas of curb replacement as well as lawn restoration.

### **CAP1505 – Concrete Street Repair Improvements (Millage)**

- Location: Various streets, refer to [project map](#)
- Contractor: Galui Construction
- Scope of work: removal and replacement of deficient concrete roadway sections, drainage structure adjustments, removal and replacement of sidewalk ramps and driveway approaches adjacent to roadway repairs, and lawn restoration.

### **CAP1504 (SA1501) – E. Fourth Street Improvements**

- Location: E. Fourth Street (Knowles Street to Campbell Road)
- Contractor: WCI Contractors
- Scope of work: installation of four concrete art platforms in roadway median, landscaping work in the median, some driveway and sidewalk replacement, and lawn restoration.

### **CAP1612 / CAP1614 – CDBG Worden Park and Dondero Park Improvements**

- Locations: Worden Park and Dondero Park
- Contractor: WCI Contractors
- Scope of work:
  - Worden Park: resurfacing the parking lot in front of the Total Soccer building and installation of a rain garden along the middle of the lot.
  - Dondero Park: Tennis and basketball court resurfacing, grading of baseball field and surrounding area, surface restoration with topsoil and hydroseed, and installation of basketball posts / backboards, tennis posts/nets, and baseball infield equipment.

### **CAP1510 – 2015 Water Main Improvements**

- Location: Greenfield Road (W. Webster Road to Springer Avenue)
- Contractor: FDM Contracting
- Scope of work: water main installation, water main connections and water service connections, removal and replacement of sidewalk ramps, sidewalk, driveway approaches, curbing, and asphalt pavement as necessary.

### **CAP1610 / CAP1611 – S. Main Street Resurfacing**

- S. Main Street (10 Mile Road to Lincoln Avenue)
- Contractor: Warren Contractors and Development, Inc.
- Scope of work: asphalt milling and paving, concrete curb and gutter construction, decorative sidewalk installation, handicap ramp replacement, drainage structure rehabilitation, removal of existing street lights and poles, installation of decorative street lights, bioswale installation, and installation of trees and tree grates.

### **CAP1608 – 2016 Sidewalk Improvement Program**

- Location: streets within Sections 5, 6, 7 and 32 of the city. Refer to [project map](#)
- Contractor: Audia Concrete Construction
- Scope of work: removal and replacement of deficient sidewalk flags and non-compliant handicap ramps, installation of sidewalks where none currently exist, lawn restoration with topsoil and standard seed mix.

**CAP1609 - Eagle Plaza Park Improvements**

- Location: Eagle Plaza Park, northwest corner of W. Fourth Street and S. Center Street
- Contractor: Warren Contractors and Development, Inc.
- Scope of work: "Smart Park" installation including new features such as mobile charging stations, public Wi-Fi, covered bicycle parking and an interactive wayfinding kiosk. Installation of new walkways, play area for children, decorative lighting, two bioswales, and moveable chairs and tables.

**S1601 – 2016 Sewer Televising & Root Treatment**

- Location: various streets throughout the city
- Contractor: United Resource LLC
- Scope of work: inspect and evaluate the current condition of sewer pipes using televising camera technology. Where severe root infestations are encountered, the pipes will be chemically root-treated in 2016 and will be root-cut in spring 2017.

**S1602 – 2016 Sewer Lining**

- Location: various streets throughout the city
- Contractor: Insituform Technologies USA, LLC
- Scope of work: cleaning and televising of public sanitary sewers, installation of an expandable structural liner system within the pipe, temporary blockage (6-8 hours) of private sewer taps during lining and curing process, and cutting open the blocked sewer leads.
