

The latest S-CAP Draft (version 05/02/2022) Includes the following Changes: Based on Public Comment Review by S-CAP Task Force and staff edits.

These edits are based on public comments:

Focus Topic	Comment	Edit Made	Edit Notes
Energy & Buildings	Advocacy for HB4715 and 4716 (community solar)	X	Added text "community solar" to 1.2.9
Mobility	Bike lane miles should be added as a metric. Also, sharrows located on main roads shouldn't count towards bike lane infrastructure. https://usa.streetsblog.org/2016/01/14/study-sharrows-dont-make-streets-safer-for-cycling/	X	Pg. 54 Added "bike lanes" as a metric (# as of 2018) Pg. 50 in text section
Waste	3.1.1 and 3.1.2, SOCRRA should be listed as a partner	X	Added on pg. 59
Green Space	Why not actively pursue 40% canopy as recommended by SEMCOG?	X	Added to the Objective's text and as a metric goal (pg. 73 & 74, respectively)
Quality of Life	Remove the 6.1.4. Codify the Human Rights Ordinance	X	It was completed years ago
	Remove the 6.3.3. Encourage the community to register to vote.	X	When people sign up for a driver's license or a state ID, they are automatically registered to vote. (Prop. 2018-18) (As per the city clerk)
Implementation	Clinton River Watershed Council should be added to the partner list.	X	Added to pg. 88 and pg. 67 Actions 4.5.1 and 4.5.3
General comments	All metrics should be measurable and actionable (ie. numerical increase/decrease instead of generalized).	X	Pg. 38 Explained that this plan has general goals and the next version will have actual goals based on data collected during this plan's 3 yr. period.
	Introduction - "highlight the S-CAP end goals",	X	added a sentence about the two goals in the Intro. (pg. 14)
	Suggest the addition of an executive summary to pull everything together (direction and highlights)	X	Created and Added Pages 8 & 9
	GHG emissions, top priorities from the stakeholder survey, and top actions that will reduce GHG emissions or will have primary focus first	X	
	Acknowledgements	X	Pg. 5 Add names of all workgroup participants
	This is a question that maybe would be good to answer in the plan – what happens after the 3-year life of the plan?	X	Added: Pg.33- Implement & Update Plan section "... An updated version of the S-CAP will be completed after the first three years based on the collected data."
Formatting	Format table of contents to allow reader to jump around (sections)	X	Added hyperlinks to Tof C
	Explain the 'F' and 'N' grading scale for GHG reduction	X	Added on pg. 38
	Create a "How to read this plan" sub-section	X	Created and Added on pg. 11
	various typo corrections	X	various
	Add quick explanation to S-CAP Approval Resolution page	X	and the next version will have actual goals based on data collected during this plan's 3 yr. period.
	Fix Equity and Accessibility abbreviation on Legends to match what's in the action tables' "Other Values Benefited" columns.	X	Changed E/A to EQ/A on pg 39, 45, 53, 59, 67, 73, 81

These are staff edits:
